## Request for Proposals – Snow Removal Services

La Plata West Water Authority (LPWWA) is seeking qualified contractor bids for snow removal during the DEC23-MAR24 Winter Season. Base bids should be priced as a per incident bid that covers the Water Dock/Office Location drive areas and the designated walk up to the door located at 555 CR 122, Hesperus, CO. This area is estimated to be between ¼ - ½ acre in size. An incident is considered a snow storm that drops 2” or more of snow. Extended events covering multiple days shall be paid as each day as an event throughout a multi-day storm performing snow removal operations once per day. The selected contractor shall perform snow removal services prior to 9:00 am for each event and requires shoes on the blade to protect the existing gravel. Application of concrete and environmentally safe de-icers shall be considered incidental to the event and shall be placed on the water dock concrete apron and the concrete walkway and wood stairs. LPWWA owns two other sites that may require snow removal services located off CR141 (services for approx. 4,000 LF long road, 16’-18’ wide) and a Pump Site located near Lake Nighthorse off CR 210 (services for approx. 4,200 LF long road, 16’-20’ wide). These two sites will only be cleared at the instruction of LPWWA as conditions require as an on-call basis. The clearing of these two roads will be cleared within 48 hours of notice. Contractor shall be insured to at least \$1,000,000 general liability in the event of damage during performance of the services.
